t.me/ChamRun 

I'm a junior full-stack developer at Gradient data processing and 2nd year bachelor student at Tehran Polytechnic (AmirKabir). Learning the magic of computer science is my most exciting interest; I sit in silence with my loose black T-shirt, searching for redemption in the clackings of my keyboard.

Skills

- Python
- CharryPy
- Matplotlib + NumPy + pandas
- SQL & NoSQL
- Java
- React
- Redux
- JavaFX

Education

2020 – PRESENT

BSc student in Computer Engineering / Polytechnic, Tehran

ranked **65th / 53444** (top 0.12%) in Iran University Entrance Exam (Konkour)

2017 - 2020

**Diploma of Math & Physics / Shahid Beheshti (NODET),
Kermanshah, Iran**

GPA: 18.64 / 20

Work Experience

FEB 2022 – PRESENT

Full Stack Engineer / Gradient Data Processing, Tehran

Once I said, "I don't even know what this task is." and dear CTO answered, "but you know how to learn to do that, and that's enough." Here is the best place for a young man searching for his favorite field in a world full of lovely technologies to learn.

DATES FROM – TO

Python Freelancer

Making telegram bots using python
